

Many of our regular customers now order their individual savoury dishes in small fresh portions knowing they can eat home-made nourishing familiar food to suit their taste.

We provide a wide range of natural food using locally sourced ingredients where possible. No additional additives or preservatives are used to produce our dishes. It is completely against our principles and rules to freeze our food and it is always freshly home-made. Gluten free, vegetarian, vegan, nut free food is a well-established concept of Country Markets.

A wide variety of handicrafts, plants, bulbs, perennials, flowers, seasonal fruit & vegetables and local eggs are also available all year round

Home Made, Home Grown, Home Crafted

From our Home to your Home just for You

Order via email by Tuesday and your freshly made goods will be ready to collect on Fridays.

Alternatively, order at the regular Friday Market for collection the following week.
